Forests & Woodlands Grown in Britain

GROW YOUR WOOD MARKETS FOR SUSTAINABLE SUCCESS

Access wider markets for products from your forests & woodlands by becoming part of Grown in Britain's licensed supply chains.

Get licensed with Grown in Britain.

Grown in Britain

Expand your woodland's horizons

with Grown in Britain licensing

Grown in Britain is connecting up supply chains from Britain's forests and woodlands through manufacturing and construction to retailers and onward to the general public. Make profitable use of our marketing campaign by gaining a Grown in Britain licence.

HOW DOES IT WORK?

Forests and woodlands in all Britain's home countries which have a UK Forestry Standard-compliant management plan, or are certified under the FSC® or PEFC™ schemes, can apply for a licence. Documentation, training and an independent audit help ensure a robust system. A Group Scheme is also available for flexibility. Woodlands under 20 hectares which meet the strict criteria can become licensed free of charge.
